

Project 1: Build a Todo App with React & Tailwind

Due Date: 20th July, 2023 23:59:59

- Using React and Tailwind CSS, build out this **Todo App** and get it looking as close to this design as possible.

- Your users should be able to:
 - View the optimal layout for the app depending on their device's screen size
 - See hover states for all interactive elements on the page
 - Add new todos to the list
 - Mark todos as complete
 - Delete todos from the list
 - Filter by all/active/complete todos
 - Clear all completed todos
 - Toggle light and dark mode
 - Drag and drop to reorder items on the list
